## Learning Paths

### Open Science Fundamentals

Learning path for Open Science Fundamentals that will take you on a training journey across the main topics related to Open Science. Complete the material and pass the final quiz to get the Open Science badge.

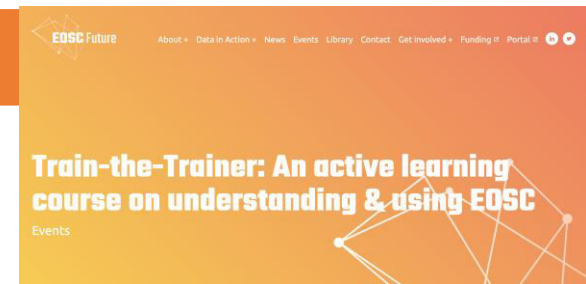

### Open Science Policies - ORDM, FAIR, and tools

This learning path intends to introduce a potential user of open science initiatives or a service provider to the open science policies, mainly a description of FAIR data, ORDM, and how one can use related tools.

# EOSC Future Activities
